

Please visit our companion journal, **JAAD Case Reports**, at
www.jaadcasereports.org to read these exciting articles from the most recent issue.

An immunosuppressed man with widely disseminated violaceous papules and nodules

Andrew S. Desrosiers, MA, Thy Huynh, MD, Mark A. Braswell, DO, Jeremy D. Jackson, MD, Veena Shenoy, MD, and Robert T. Brodell, MD

Vesiculobullous eruption in neutropenic patient with Crohn's disease

Jeanette Wat, MS, Margaret Wat, MD, PhD, and Kord Honda, MD

Annular erythematous plaques in the Marianas

Erik A. Kumetz, MD, LT MC USN, Niels Olson, MD, CDR MC USN, and Shayna C. Rivard, MD, LCDR MC USN

Exophytic plaque on the plantar foot

Yasmin Hadian, MS, Catherine Tchanque-Fossuo, MD, Sara E. Dahle, DPM, MPH, Kaitlyn West, BS, Marat Kazak, DPM, Haines Ely, MD, Joshua M. Schulman, MD, and R. Rivkah Isseroff, MD

HIV patient with painless bilateral external ear nodules

Michelle McNally, RN, BSN, Saisindhu Narala, MD, MAS, and Misha Koshelev, MD, PhD

Multiple tender bluish nodules

Courtney Kromer, MS, Nima Milani-Nejad, MD, PhD, Catherine Chung, MD, and Kelly Tyler, MD

Granulosis rubra nasi seen through the dermatoscope

Aparna Palit, MD, Madhusmita Sethy, MD, Ashish Kumar Nayak, MD, Pavithra Ayyanar, MD, DNB, and Biswanath Behera, MD, DNB

Plasmablastic lymphoma in an HIV patient with cutaneous presentation:
A case of remarkable remission in a typically refractory disease

Ijeuru Chikeka, MD, Marc Grossman, MD, FACP, Changchun Deng, MD, PhD, Alice T. Jacob, RN, and Sameera Husain, MD

Intralesional overlap syndrome: Sclerodermic lupus panniculitis and sclerodermic discoid lupus erythematosus

Ziv Schwartz, MHA, and Cynthia M. Magro, MD

Persistent and nonprogressive cutaneous blastomycosis in a pregnant adolescent

Jennifer L. Anderson, BS, Matthew C. Hall, MD, Erik J. Stratman, MD, and Jennifer K. Meece, PhD

JAAD Case Reports (continued)

Symmetrical drug-related intertriginous and flexural exanthema secondary to epidermal growth factor receptor inhibitor gefitinib

Beatrice Copps, BSc, Jean-Philip Lacroix, MD, and Denis Sasseville, MD

Recalcitrant, delayed pressure urticaria treated with long-term intravenous immunoglobulin

Yssra S. Soliman, MD, Henry W. Lim, MD, and Holly A. Kerr, MD

Iatrogenic calcinosis cutis secondary to calcium chloride successfully treated with topical sodium thiosulfate

James Abbott, MD, Eric H. Kowalski, BS, Stephanie Klein, MD, Rosemary DeShazo, MD, and Christopher M. Hull, MD

Tinea capitis mimicking favus in rural Washington State

Ngan Do, BS, Eliza Notaro, MD, Gary Schillhammer, MD, and Roy Colven, MD

Response to low-dose intravenous immunoglobulin in a case of recalcitrant Darier disease

Adeline Legrand, MD, Anne-Sophie Darrigade, MD, Alain Taieb, MD, PhD, Brigitte Milpied, MD, and Julien Seneschal, MD, PhD

Brunsting-Perry pemphigoid transitioning from previous bullous pemphigoid

Shengru Zhou, MD, PhD, Yaru Zou, MD, and Meng Pan, MD, PhD

Bullous pemphigoid associated with cemiplimab therapy in a patient with locally advanced cutaneous squamous cell carcinoma

Cesar A. Virgen, MD, PhD, Tuyet A. Nguyen, MD, Cosimo Di Raimondo, MD, Arya Amini, MD, Kim A. Margolin, MD, Vishwas Parekh, MD, Farah R. Abdulla, MD, and Badri Modi, MD

Gamma-delta mycosis fungoides in a posttransplant patient

Julie M. Bittar, BA, Simon Warren, MBBS, and Lawrence A. Mark, MD, PHD

Toxoplasmosis in a patient receiving ixekizumab for psoriasis

Yolanka Lobo, BPhysio, MBBS, Teagan Holland, RN, and Lynda Spelman, MBBS, FACD

Malignant circumscribed acral hypokeratosis

Lorin A. Bibb, MD, James P. Rash, MD, and Roy King, MD

Treatment of lichen planopilaris with adalimumab in a patient with hidradenitis suppurativa and rheumatoid arthritis

Maryam Shayesteh Alam, MD, FRCPC, FAAD, and Brittanie LaBelle, MD

JAAD Case Reports (continued)

Blaschkoid lichen planus: Throwing a “curve” in the nomenclature of linear lichen planus

Maressa C. Criscito, MD, Nooshin K. Brinster, MD, Debra L. Skopicki, MD, Roy Seidenberg, MD, and Jeffrey M. Cohen, MD

Endocarditis-associated IgA vasculitis: Two subtle presentations of endocarditis caused by *Candida parapsilosis* and *Cardiobacterium hominis*

Jake X. Wang, MD, Sara Perkins, MD, Mariam Totonchy, MD, Christopher Stamey, MD, Lauren L. Levy, MD, FAAD, Suguru Imaeda, MD, Shawn E. Cowper, MD, and Alicia J. Little, MD, PhD

Iatrogenic Kaposi sarcoma presenting as retiform purpura during treatment of bullous pemphigoid

Liesl Schroedl, BS, Esther Kim, MD, and Mark D. Hoffman, MD

Combination therapy with prednisone and isotretinoin in early erythema dyschromicum perstans: A retrospective series

Aisleen Diaz, BS, Ryan Gillihan, MD, Kiran Motaparthy, MD, and Adam Rees, MD

Increasing evidence for omalizumab in the treatment of bullous pemphigoid

Sarah Lonowski, MD, MBA, Suzanne Sachsman, MD, Nirali Patel, MS, Allison Truong, MD, and Vanessa Holland, MD

Epithelial sheath neuroma: A case series

Akshay Flora, MD, Roger H. Kim, MBBS, Alexis D. Lara Rivero, MBBS, MAIMS, FACD, Urszula Carr, MBBS, FRCPA, and Frank Isaacs, MBBS, FACD

Dupilumab-induced phenotype switching from atopic dermatitis to psoriasis

Aakaash Varma, BA, and Jacob Levitt, MD
