

## Poster Exhibit Work Group

The Posters Exhibit Work Group enhances the educational value of the Academy Meetings by administering poster exhibits, poster discussion sessions, and poster awards. Poster abstracts are solicited, blind reviewed, and graded by peer review for selection as poster exhibits or poster discussions. The Work Group develops guidelines and monitors posters for quality educational content.

Dosages, indications, and methods of use for products that are referred to in the supplement by the authors may reflect their clinical experience or may be derived from the professional literature or other clinical sources. Because of the differences between in vitro and in vivo systems and between laboratory animal models and clinical data in humans, in vitro and animal data may not necessarily correlate with clinical results.

Accepted abstracts are reprinted exactly as submitted by the author or author's representative(s). No changes may be made in the abstract after submission. For instance, no change in authors, title, category, content or spelling will be allowed. If a change is required for scientific or academic accuracy, the poster submission should be withdrawn.

**Future citation agreement/How to cite abstracts from this supplement:** Author(s) agree(s) that citations to poster abstracts published in the *Journal of the American Academy of Dermatology* will adhere to the format of the examples given below, which clearly indicate that the cited item has been published in abstract form.
