

- Airway 933
Amniotic fluid 939
– mesenchymal stem cell 902
– stem cell 902
Animal model 939
- Bereavement outreach 960
Birth defects 960
Bladder dysfunction 882
- Chorioamniotic membrane separation 894
Congenital anomalies 960
– diaphragmatic hernia 927
Cystic lesion resolution 955
- Dichorionic twins 947
- Ex utero intrapartum treatment 933
Extracorporeal membrane oxygenation 927
- Fetal care 960
– center 933
– cystic abdominal lesions 955
– cysts 955
– growth and development 939
– myelomeningocele repair 912
– rabbit 939
– stem cell 902
– surgery 873, 882, 894, 912, 918
– therapy 873, 889
Fetosopic laser surgery 947
Fetoscopy 947
- Grief support 960
- Intrauterine surgery 873
- Learning curve 918
Long-term outcome 947
- Maternal care 960
Micrognathia 933
Monochorionic twins 947
Myelomeningocele 865, 873, 882, 889, 894, 902
Myeloschisis 889
- Neonatal outcome 865
Neural tube defect 889
Neurodevelopment 947
Neurogenic bladder dysfunction 882
Neuropathic bladder 882
- Obesity 889
Open maternal-fetal surgery 889
– neural tube defects 873
– spina bifida 894
- Parental grief 960
Perinatal loss 960
Placental mesenchymal stromal cells 912
Prematurity 927
Prenatal diagnosis 955
– surgery 865
Preterm delivery 865
– labor 894
– premature rupture of membranes 894
- Spina bifida 873, 882, 902
- Tracheostomy 933
Training 918
Transamniotic stem cell therapy 902
Twin-to-twin transfusion syndrome 947
- Urodynamic studies 882
Urological outcome 882
