## CONTENTS

VOLUME 29 • NUMBER 7 • SUPPLEMENT • JULY

---

The Journal is included in the *Index Medicus* and in MEDLINE

---

### Special Issue

**Defining the younger patient: age as a predictive factor for outcomes in shoulder arthroplasty**

Earl E. Brewley Jr, MD, Kaitlyn N. Christmas, BS, CCRC, R. Allen Gorman II, MD, Katherine L. Downes, PhD, MPH, Mark A. Mighell, MD, and Mark A. Frankle, MD, Tampa, FL, USA ..... S1

**Optimizing humeral stem fixation in revision reverse shoulder arthroplasty with the cement-within-cement technique**

R. Allen Gorman II, MD, Kaitlyn N. Christmas, BS, CCRC, Peter Simon, PhD, A. Vincent Hess II, BA, Earl E. Brewley Jr, MD, Mark A. Mighell, MD, and Mark A. Frankle, MD, Tampa, FL, USA ..... S9

**Midterm outcomes of arthroscopic rotator cuff repair in patients aged 75 years and older**

Michael A. Stone, MD, Jason C. Ho, MD, Liam Kane, BS, Mark Lazarus, MD, and Surena Namdari, MD, MSc, Philadelphia, PA, USA ..... S17

**Primary reverse shoulder arthroplasty: how did medialized and glenoid-based lateralized style prostheses compare at 10 years?**

Justin C. Kennon, MD, Chad Songy, MD, Douglas Bartels, MD, Joseph Statz, MD, Robert H. Cofield, MD, John W. Sperling, MD, MBA, and Joaquin Sanchez-Sotelo, MD, PhD, Rochester, MN, USA ..... S23

**Acute surgical management of proximal humerus fractures: ORIF vs. hemiarthroplasty vs. reverse shoulder arthroplasty**

B. Israel Yahuaca, MD, Peter Simon, PhD, Kaitlyn N. Christmas, BS, CCRC, Shaan Patel, MD, R. Allen Gorman II, MD, Mark A. Mighell, MD, and Mark A. Frankle, MD, Tampa, FL, USA ..... S32

**Minimal clinically important differences after subpectoral biceps tenodesis: definition and retrospective assessment of predictive factors**

Francisco A. Eguia, BA, Iman Ali, BS, Ankit Bansal, MD, Edward G. McFarland, MD, and Uma Srikumaran, MD, Baltimore, MD, USA ..... S41

**Factors influencing operative time in arthroscopic rotator cuff repair: a comparison of knotless single-row vs. transosseous equivalent dual-row techniques**

Jason A. Boyd, MD, Spero G. Karas, MD, Ryan J. Urchek, MD, Kevin X. Farley, BS, Albert T. Anastasio, MD, and Michael B. Gottschalk, MD, Atlanta, GA, USA ..... S48

## CONTINUED

<b>Is residual tendon a predictor of outcome following arthroscopic rotator cuff repair? A preliminary outlook at short-term follow-up</b> Robert Longstaffe, MD, FRCSC, Kyle Adams, BS, Charles Thigpen, PT, PhD, Stephan Pill, MD, Lane Rush, MD, Ryan Alexander, BS, Taylor M. Hall, BS, Paul Siffri, MD, Adam Kwapisz, MD, Richard Hawkins, MD, John M. Tokish, MD, Michael Kissenberth, MD, and Stefan Tolan, MD, Greenville, SC; Meridian, MS; Scottsdale, AZ, USA; Winnipeg, MB, Canada; and Lodz, Poland .....	S53
<b>Clinical characteristics and patient-reported outcomes of total shoulder arthroplasty after anterior stabilization: a retrospective matched control study</b> Gabriella E. Ode, MD, Daphne Ling, MPH, PhD, Anthony Finocchiaro, BS, Emily Ying Lai, MS, Samuel A. Taylor, MD, Joshua Dines, MD, David Dines, MD, Russell Warren, MD, and Lawrence Gulotta, MD, Greenville, SC; New York, NY, USA .....	S59
<b>Therapeutic postoperative anticoagulation is a risk factor for wound complications, infection, and revision after shoulder arthroplasty</b> Jourdan M. Cancienne, MD, John T. Awowale, MD, Christopher L. Camp, MD, Ryan M. Degen, MD, Brian Shiu, MD, Dean Wang, MD, and Brian C. Werner, MD, New Orleans, LA; Charlottesville, VA; Rochester, MN; Towson, MD; Orange, CA, USA; and London, ON, Canada .....	S67
<b>Arthroscopic supraglenoid origin-preserving biceps tenodesis: a reliable, simple, and cost-conscious technique</b> Mark Ayzenberg, MD, Andrew D. Hiller, MD, Ryan Vellinga, MD, and Stephen J. Snyder, MD, Van Nuys, CA, USA .....	S73
<b>Patients with depression and anxiety symptoms from adjustment disorder related to their shoulder may be ideal patients for arthroscopic rotator cuff repair</b> Brian C. Lau, MD, Melissa Scribani, MPH, and Jocelyn Wittstein, MD, Durham, NC; Cooperstown, NY, USA .....	S80
<b>Systematic review of reversing pseudoparalysis of the shoulder due to massive, irreparable rotator cuff tears</b> Patrick Dickerson, MD, MS, Stephan G. Pill, MD, Robert Longstaffe, MD, FRCSC, Ellen Shanley, PhD, PT, OCS, Charles A. Thigpen, PhD, PT, ATC, and Michael J. Kissenberth, MD, Rogers, AR; Greenville, SC, USA; and Winnipeg, MB, Canada .....	S87
<b>Systematic review of the treatment of acromioclavicular joint disruption comparing number of tunnels and graft type</b> Stephan G. Pill, MD, MPST, Lane Rush, MD, John Arvesen, MD, Ellen Shanley, PhD, PT, OCS, Charles A. Thigpen, PhD, PT, ATC, John L. Glomset, MD, Robert Longstaffe, MD, FRCSC, and Michael J. Kissenberth, MD, Greenville, SC; Meridian, MI; Oklahoma City, OK, USA; and Winnipeg, MB, Canada .....	S92
<b>Clinical and radiographic outcomes of a transosseous suture technique for displaced lateral clavicle fractures</b> Daniel S. Brereton, DO, Jerrick G. Robker, DO, Marci Gamez, DNP, CNS, RNFA, CNOR, Wayne Z. Burkhead, MD, and Todd C. Moen, MD, Dallas, TX; San Diego, CA; Moreno Valley, CA, USA .....	S101
<b>Return to sport testing at 6 months after arthroscopic shoulder stabilization reveals residual strength and functional deficits</b> Kevin W. Wilson, MD, Adam Popchak, PT, PhD, Ryan T. Li, MD, Gillian Kane, BS, and Albert Lin, MD, State College, PA; Pittsburgh, PA; Raleigh, NC, USA .....	S107
<b>Increased opioid use following rotator cuff repair associated with prior opioid use and surgeon prescription patterns</b> Cole G. Chapman, PhD, Jared Hudspeth, MD, Sarah B. Floyd, PhD, Ryan Carnahan, PharmD, MS, BCPP, Charles A. Thigpen, PhD, PT, ATC, and Michael J. Kissenberth, MD, Iowa City, IA; Greenville, SC; Columbia, SC, USA .....	S115

## CONTINUED

### **A 10-year experience with reverse shoulder arthroplasty: are we operating earlier?**

R. Chris Reams, MD, Marie Vigan, PhD, Thomas W. Wright, MD, Joseph J. King, MD, Jean-David Werthel, MD, and Bradley S. Schoch, MD, Gainesville, FL; Jacksonville, FL, USA; and Boulogne-Billancourt, France ..... S126

### **Salvage reverse total shoulder arthroplasty for failed anatomic total shoulder arthroplasty: a cohort analysis**

R. Stephen Otte, MD, Amanda J. Naylor, MA, Cassandra N. Blanchard, MA, Jourdan M. Cancienne, MD, William Chan, MA, Anthony A. Romeo, MD, Grant E. Garrigues, MD, and Gregory P. Nicholson, MD, Bradenton, FL; Chicago, IL; New Orleans, LA; New York, NY, USA ..... S134

### **Early results of reverse total shoulder arthroplasty using a patient-matched glenoid implant for severe glenoid bone deficiency**

Rajesh Rangarajan, MD, Collin K. Blout, BS, Vikas V. Patel, MD, Sevag A. Bastian, MD, Brian K. Lee, MD, and John M. Itamura, MD, Los Angeles, CA; Glendale, CA, USA ..... S139

### **Does the etiology of a failed hemiarthroplasty affect outcomes when revised to a reverse shoulder arthroplasty?**

Kimberly J. Franke, MD, Kaitlyn N. Christmas, BS, CCRC, Katheryne L. Downes, PhD, MPH, Mark A. Mighell, MD, and Mark A. Frankle, MD, Tampa, FL, USA ..... S149

## READER SERVICES

**Information for Readers** ..... 6A

### **Disclaimer**

The opinions or views expressed in this professional education supplement are those of the authors and do not necessarily reflect the opinions or recommendations of the Board of Trustees of the *Journal of Shoulder and Elbow Surgery*.

Dosages, indications, and methods of use for products that are referred to in the supplement by the authors may reflect their clinical experience or may be derived from the professional literature or other clinical sources. Because of the differences between in vitro and in vivo systems and between laboratory animal models and clinical data in humans, in vitro and animal data may not necessarily correlate with clinical results.

### **Manuscript Review Information**

All manuscripts submitted to both regular issues and supplements of the *Journal of Shoulder and Elbow Surgery* are reviewed by two reviewers.

All authors submitting to supplements are required to fully disclose any primary financial relationships with a company that has a direct fiscal or business interest in the subject matter or products discussed in the submitted manuscript, or with a company that produces a competing product. These relationships (such as ownership of stock or significant honoraria or consulting fees) and any direct support of research by a commercial company must be indicated in the Disclaimer section at the end of each article.

Practitioners and researchers must always rely on their own experience and knowledge in evaluating and using any information, methods, compounds or experiments described herein. Because of rapid advances in the medical sciences, in particular, independent verification of diagnoses and drug dosages should be made. To the fullest extent of the law, no responsibility is assumed by the American Shoulder and Elbow Surgeons for any injury and/or damage to persons or property as a matter of products liability, negligence or otherwise, or from any use or operation of any methods, products, instructions, or ideas contained in the material herein.
