

## EDITORIALS

- Seventy-five years since the birth of the Liverpool anaesthetic technique**  
*J. P. Mulier, J. M. Hunter and H. D. de Boer* 343
- Fast-track hip and knee arthroplasty...how fast?**  
*T. W. Wainwright, S. G. Memtsoudis and H. Kehlet* 348
- Could anaesthetic technique be blocking successful outcomes in arteriovenous fistula surgery?**  
*A. J. R. Macfarlane, M. D. Neuman and E. Aitken* 349
-  **Monitoring of nociception: is more always more?**  
*F. von Dincklage and T. Ledowski* 352
- Importance of proper conduct of clinical trials**  
*A. Cortegiani and A. R. Absalom* 354
-  **Revisiting postoperative complications after abdominal robot-assisted surgery: applying the Core Outcome Measures in Perioperative and Anaesthetic Care**  
*K. I. Albers, G. Reijnders-Boerboom, C. Keijzer, G.-J. Scheffer, J. P. Mulier and M. C. Warlé* 356

## COVID-19 AND THE ANAESTHETIST: A SPECIAL SERIES

- Controversies in airway management of COVID-19 patients: updated information and international expert consensus recommendations**  
*H. Wei, B. Jiang, E. C. Behringer, R. Hofmeyr, S. N. Myatra, D. T. Wong, E. P. O' Sullivan, C. A. Hagberg, B. McGuire, P. A. Baker, J. Li, M. Plypenko, W. Ma, M. Zuo, N. M. Senturk and U. Klein* 361

## CLINICAL PRACTICE

- Intraoperative opioids are associated with improved recurrence-free survival in triple-negative breast cancer**  
*G. Montagna, H. V. Gupta, M. Hannum, K. S. Tan, J. Lee, J. R. Scarpa, G. Plitas, T. Irie, P. J. McCormick, G. W. Fischer, M. Morrow and J. S. Mincer* 367
- Deep neuromuscular block does not improve surgical conditions in patients receiving sevoflurane anaesthesia for laparoscopic renal surgery**  
*G. H. M. Honing, C. H. Martini, E. Olofsen, R. F. M. Bevers, V. A. L. Huurman, I. P. J. Alwayn, M. van Velzen, M. Niesters, L. P. H. J. Aarts, A. Dahan and M. Boon* 377
- Prospective clinical validation of the Eleveld propofol pharmacokinetic-pharmacodynamic model in general anaesthesia**  
*R. Vellinga, L. N. Hannivoort, M. Introna, D. J. Touw, A. R. Absalom, D. J. Eleveld and M. M. R. F. Struys* 386
- Engaging patients as partners in a multicentre trial of spinal versus general anaesthesia for older adults**  
*J. Hruslinski, D. A. Menio, R. A. Hymes, J. D. Jaffe, C. Langlois, L. Ramsey, L. J. Gaskins, M. D. Neuman and for the Regional Versus General Anesthesia for Promoting Independence After Hip Fracture Investigators* 395

## CRITICAL CARE

- Intelligent checklists improve checklist compliance in the intensive care unit: a prospective before-and-after mixed-method study**  
*A. J. R. De Bie, E. Mestrom, W. Compagner, S. Nan, L. van Genugten, K. Dellimore, J. Eerden, S. van Leeuwen, H. van de Pol, F. Schuling, X. Lu, A. J. G. H. Bindels, A. R. A. Bouwman and E. H. H. M. Korsten* 404
- Polypharmacy and emergency readmission to hospital after critical illness: a population-level cohort study**  
*A. J. Turnbull, E. Donaghy, L. Salisbury, P. Ramsay, J. Ratray, T. Walsh and N. Lone* 415

## NEUROSCIENCE AND NEUROANAESTHESIA

- Improving perioperative brain health: an expert consensus review of key actions for the perioperative care team**  
*C. J. Peden, T. R. Miller, S. G. Deiner, R. G. Eckenhoff, L. A. Fleisher and Members of the Perioperative Brain Health Expert Panel* **423**
- Prospectively assessed neurodevelopmental outcomes in studies of anaesthetic neurotoxicity in children: a systematic review and meta-analysis**  
*C. Ing, W. M. Jackson, M. J. Zaccariello, T. E. Goldberg, M.-E. McCann, A. Grobler, A. Davidson, L. Sun, G. Li and D. O. Warner* **433**
- Effects of noxious stimulation on the electroencephalogram during general anaesthesia: a narrative approach to analgesic titration**  
*P. S. García, M. Kreuzer, D. Hight and J. W. Sleigh* **445**
- Association between plasma tau and postoperative delirium incidence and severity: a prospective observational study**  
*T. Ballweg, M. White, M. Parker, C. Casey, A. Bo, Z. Farahbakhsh, A. Kayser, A. Blair, H. Lindroth, R. A. Pearce, K. Blennow, H. Zetterberg, R. Lennertz and R. D. Sanders* **458**
- Association between cerebrospinal fluid biomarkers of neuronal injury or amyloidosis and cognitive decline after major surgery**  
*M. Danielson, A. Wiklund, F. Granath, K. Blennow, S. Mkrтчian, B. Nellgård, J. Oras, M. J. Fagerlund, A. Granström, A. Schening, L. S. Rasmussen, H. E. Harris, H. Zetterberg, S.-E. Ricksten and L. I. Eriksson* **467**
- Desflurane and sevoflurane differentially affect activity of the subthalamic nucleus in Parkinson's disease**  
*Y.-C. Chen, S.-Y. Chen, T.-Y. Chen, J.-I. Pan and S.-T. Tsai* **477**
- Infant isoflurane exposure affects social behaviours, but does not impair specific cognitive domains in juvenile non-human primates**  
*V. Neudecker, J. F. Perez-Zoghbi, K. Coleman, M. Neuringer, N. Robertson, A. Bemis, B. Glickman, K. J. Schenning, D. A. Fair, L. D. Martin, G. A. Dissen and A. M. Brambrink* **486**

## OBSTETRIC ANAESTHESIA

- Epidural analgesia, intrapartum hyperthermia, and neonatal brain injury: a systematic review and meta-analysis**  
*S. Morton, J. Kua and C. J. Mullington* **500**

## PAIN

-  **Nociception level guided opioid administration in radical retropubic prostatectomy: a randomised controlled trial**  
*S. Funcke, H. O. Pinnschmidt, C. Brinkmann, S. Wesseler, B. Beyer, M. Fischer and R. Nitzschke* **516**

## QUALITY AND PATIENT SAFETY

**Few and feasible preoperative variables can identify high-risk surgical patients: derivation and validation of the Ex-Care risk model**

C. S. Gutierrez, S. C. Passos, S. M. J. Castro, L. S. M. Okabayashi, M. L. Berto, M. B. Lorenzen, W. Caumo and L. C. Stefani

525

## RESPIRATION AND THE AIRWAY

 **Ventilation and outcomes following robotic-assisted abdominal surgery: an international, multicentre observational study**

Assessment of Ventilation during general Anesthesia for Robotic surgery (AVATaR) Study Investigators, for the PROtective VEntilation (PROVE) Network

533

**Minimising exposure to droplet and aerosolised pathogens: a computational fluid dynamics study**

P. Perella, M. Tabarra, E. Hataysal, A. Pournasr and I. Renfrew

544

## STATISTICS

**Bayesian predictive probabilities: a good way to monitor clinical trials**

D. Ferreira, P.-O. Ludes, P. Diemunsch, E. Noll, K. D. Torp and N. Meyer

550

## CORRESPONDENCE

**Fresh gas flows, filters, heat and moisture exchangers, and humidification. Comment on *Br J Anaesth* 2020; 125: 773–778**

R. Thomas

e53

**Goal-directed fluid therapy for oesophagectomy surgery**

A. Joosten, P. Van der Linden, J.-L. Vincent and J. Duranteau

e54

**A randomised pilot trial of combined cognitive and physical exercise prehabilitation to improve outcomes in surgical patients**

K. F. Rengel, N. Mehdiratta, S. W. Vanston, K. R. Archer, J. C. Jackson, J. L. Thompson, P. P. Pandharipande and C. G. Hughes

e55

**Succinylcholine rescue for sugammadex-induced laryngospasm. Comment on *Br J Anaesth* 2020; 125: 423–5**

A. Jain, J. Batra, M. Lamperti and D. J. Doyle

e58

**Perioperative automation: Time to become artificial intelligence literate? Response to *Br J Anaesth* 2020; 125: 843–6**

H. V. Goldstein and J. C. Goldstein

e59

**Variability in experimental pain studies: nuisance or opportunity?**

V. J. Madden, P. R. Kamerman, M. J. Catley, V. Bellan, L. N. Russek, D. Camfferman and G. Lorimer Moseley

e61

**Nociception level-guided fentanyl titration: potential impact of multimodal anaesthesia and false positives. Comment on *Br J Anaesth* 2020; 125: 1070–8**

S. Coeckelenbergh, H. E. M. Vereecke and P. Richebé

e64

**Nociception level monitoring for personalized analgesic treatment. Response to *Br J Anaesth* 2020; 125: 1070–8**

F. Meijer, M. Honing, T. Roor, S. Toet, P. Calis, E. Olofsen, C. Martini, M. van Velzen, L. Aarts, M. Niesters, M. Boon and A. Dahan

e65

**Doing more and doing better: improving racial and ethnic disparities research in anaesthesiology**

J. M. Rosenbloom, M. R. King and T. A. Anderson

e66

**A student's perspective on the relevance of anaesthesia and critical care to the medical school curriculum. Response to *Br J Anaesth* 2018; 121: 993–6**

A. Krishnan

e68

## COVID-19 CORRESPONDENCE

**Haemodynamic impact of positive end-expiratory pressure in SARS-CoV-2 acute respiratory distress syndrome: oxygenation versus oxygen delivery**

R. Barthélémy, V. Beaucoté, R. Bordier, M. Collet, A. Le Gall, A. Hong, C. de Roquetaillade, E. Gayat, A. Mebazaa and B. G. Chousterman

e70

**Potential for personalised application of inhaled nitric oxide in COVID-19 pneumonia**

B. Garfield, C. McFadyen, C. Briar, C. Bleakley, A. Vlachou, M. Baldwin, N. Lees, S. Price, S. Ledot, C. McCabe, S. J. Wort, B. V. Patel and L. C. Price

e72

**Hypoxaemia does not necessitate tracheal intubation in COVID-19 patients. Comment on *Br J Anaesth* 2021; 126: 44–7**

M. J. Tobin, A. Jubran and F. Laghi

e75

**Optical gas imaging of carbon dioxide at tracheal extubation: a novel technique for visualising exhaled breath**

*B. Murphy, R. Cahill, C. McCaul and D. Buggy*

**e77**

## **ABSTRACTS**

**Abstracts from Anaesthesia Research 2020 Royal College of Anaesthetists London, UK, November 24, 2020**

**e79**

## **BOOK REVIEW**

***Leadership in Anaesthesia. Five Pioneers of the Deadly Quest for Surgical Insensibility, Berend Mets. Published by Cambridge Scholars Publishing, Newcastle upon Tyne, UK, 2020, pp. 340. Price £64.99. ISBN9781527555969.***
