

# JAAD case reports

An official Journal of the American Academy of Dermatology

Please visit our companion journal, **JAAD Case Reports**, at [www.jaadcasereports.org](http://www.jaadcasereports.org) to read these exciting articles from the most recent issue.

## Lower extremity nodules in an immunocompetent woman

*Ista A. Egbeto, BS, Apoorva Trivedi, MD, Eric Evan-Browning, MD, and Nikki A. Levin, MD, PhD*

## Edematous lower extremities with overlying verrucous plaques

*Antonio Jimenez, BS, Frank Winsett, MD, and Brent Kelly, MD*

## A rapidly-growing, heme-crusted lesion

*Adam Wynn, BS, Daniel Baird, MD, Ashley Sturgeon, MD, and Cloyce Stetson, MD*

## Exuberant oral lesions in an immunocompromised patient

*Cleide Garbelini Lima Forneck, MD, Gabriela Evangelista de Almeida, MD, Marcela Carolina Pastore, MD, Andréa de Souza Cavalcante, MS, and Mara Lúcia Gomes de Souza, MD*

## Asymptomatic pink nodules on a 28-year-old patient

*Ann Lin, DO, MS, Lauren Schwartzberg, BS, Suzanne Friedler, MD, and Jason Cohen, MD*

## Multiple rubbery nodules on the scalp

*Astrid Herzum, MD, Roberto Russo, MD, Emanuele Cozzani, MD, PhD, Michele Paudice, MD, Antonio Guadagno, MD, and Aurora Parodi, MD*

## Bilateral nipple neoformations

*Wendy Carolina González-Hernández, MD, María Eugenia Rosas-Romero, MD, Karen Fabiola Velásquez-Hernández, MD, and Heidi Hernández-Ramírez, MD*

## Aligned nodules on the forearms

*Fernanda Teixeira, MD, PhD, Maria de Lourdes Bialon Santana, MD, and Elemir Macedo de Souza, PhD*

## Dermoscopy of collision tumor arising in nevus sebaceus of Jadassohn

*Fatima Azzahra El gaitibi, MD, Mehdi Khallaayoune, MD, Soumaya Hamich, MD, Kaoutar Znati, MD, Mariame Meziane, MD, and Karima Senouci, MD*

## Severe recalcitrant otic lichen planus treated with mycophenolate mofetil

*Lisa N. Guo, BS, Jennifer J. Shin, MD, SM, Stephanie Schulte, MD, and Joseph F. Merola, MD, MMSc*

## Perforating lichen nitidus

*Tessa LeWitt, BS, Victor L. Quan, MD, Pedram Yazdan, MD, and Xiaolong (Alan) Zhou, MD, MSc*

## Refractory pruritus responds to dupilumab in a patient with TTC7A mutation

*Yassaman Alipour Tehrani, MD, Louis Marois, MD, Caroline Colmant, MD, Valérie Marchand, MD, Victor Kokta, MD, Jérôme Coulombe, MD, Danielle Marcoux, MD, Elie Haddad, MD, PhD, and Catherine McCuaig, MD*

## Eosinophilia with leukemoid reaction secondary to *Sarcoptes scabiei*

*Xavier Sánchez-Flores, MD, Karina J. Cancel-Artau, MD, and Luz Figueroa, MD*

## A new eruption of bullous pemphigoid within psoriatic plaques following cyclosporine withdrawal

*Katerina Svingos, BA, Lauren Fried, BS, Lu Yin, BA, Nooshin Brinster, MD, Kristen Lo Sicco, MD, and Prince Adotama, MD*

The use of ustekinumab and guselkumab in a pediatric psoriasis patient with active hepatitis B infection

*Eingun James Song, MD, FAAD, Patrick Whitman, DO, and Jonmichael Samsel, BS*

Guselkumab as a treatment option for recalcitrant pyoderma gangrenosum

*Cassandra Baier, MS, PA-C, and Orr Barak, MD, PhD*

Treatment of angiokeratomas of Fordyce with topical rapamycin 0.25% cream

*Katheryn A. Bell, BA, Emily L. Guo, MD, and Cynthia M. C. DeKlotz, MD*

Acitretin therapy for vulvar lichen sclerosus complicated by recurrent squamous cell carcinoma

*Alison Ranum, BA, and David R. Pearson, MD*

Glomeruloid reactive angioendotheliomatosis in a woman with systemic lupus erythematosus and antiphospholipid syndrome mimicking reticular erythematous mucinosis

*Caterina Ferreli, MD, Laura Atzori, MD, and Franco Rongioletti, MD*

Eruptive squamous cell carcinomas in an erythrodermic patient

*Alec J. Ziemann, BS, Michi M. Shinohara, MD, and Melanie Kuechle, MD*

A case of B-cell lymphoblastic leukemia cutis flaring following CAR T-cell therapy in a patient with refractory acute lymphoblastic leukemia

*Pranav Puri, BA, Kevin J. Severson, BS, Meera H. Patel, BS, Caitlin M. Brumfiel, BS, David J. DiCaudo, MD, Allison C. Rosenthal, DO, and Aaron R. Mangold, MD*

A rare case of a subungual epidermoid cyst treated by surgical excision maintaining maximal functionality

*Stephanie Geisler, MD, Volker Steinkraus, MD, and Christoph R. Loeser, MD*

High-dose doxepin for the treatment of chronic, intractable scalp pruritus

*Stephanie Chan, BS, Vidhatha Reddy, BA, Bridget Myers, BS, Nicholas Brownstone, MD, Quinn Thibodeaux, MD, and John Koo, MD*

Infusion reaction to infliximab biosimilar after transitioning from infliximab

*Reem Kashlan, MPH, Alexis B. Lyons, MD, Shanthi Narla, MD, and Iltefat H. Hamzavi, MD*

Acceleration of cutaneous T-cell lymphoma following dupilumab administration

*Kristen Russomanno, MD, and Cynthia Marie Carver DeKlotz, MD*

B-cell lymphoma 2 inhibitor venetoclax treatment of a patient with cutaneous T-cell lymphoma

*Amber Loren O. King, BA, Fatima N. Mirza, MPH, Julia M. Lewis, PhD, Kacie R. Carlson, PA, Scott Huntington, MD, MPH, Francine M. Foss, MD, and Michael Girardi, MD*

Unknown primary Merkel cell carcinoma in the immunosuppressed patient: Case series

*Jason M. Rizzo, MD, PhD, Paul W. Harms, MD, PhD, Kelly L. Harms, MD, PhD, Andrew Plaska, MD, Chad Brenner, PhD, and Alison B. Durham, MD*

Immune checkpoint inhibitor therapy in HIV-associated Merkel cell carcinoma: A case series of 3 patients

*Song Y. Park, MD, Candice Church, PhD, Nora A. Alexander, BS, Michi M. Shinohara, MD, Kelly G. Paulson, MD, PhD, Karl D. Lewis, MD, Nancy S. Lee, MD, and Paul Nghiem, MD, PhD*

A case of acral lichen sclerosus et atrophicus

*Haley D. Heibel, MD, Angela R. Styles, MD, and Clay J. Cockerell, MD, MBA*
